Nuestra historia

La ribera del Mediterráneo fue la cuna del Neolítico en Europa, vio nacer y crecer las primeras grandes civilizaciones.

A lo largo de sus costas, Fenicios, Persas, Egipcios, Griegos y finalmente los Romanos, levantaron sus asentamientos. Y fue así, como nos regalaron siglos y siglos de sabiduría, que pusieron a nuestro alcance, transformando nuestras costumbres y nuestros hábitos.

Culturas ancestrales que mezclándose entre nuestras calles, plazas y mercados, dieron lugar a nuestra historia. Contribuyendo con su saber a crear un nuevo arte, conocimiento y filosofía de vida que aún perdura.

Our story

The Mediterranean shores were the cradle of the Neolithic in Europe where the birth and growth of the first great civilizations took place.

Along its coasts, Phoenicians, Persians, Egyptians, Greeks and finally the Romans made their settlements. Thus they passed on centuries of wisdom which was offered to us to shape our customs and the way we live.

Ancestral cultures that permeated our streets, squares and markets to create our history. Contributing with their enlightenment to the creation of new art, knowledge and a philosophy of life that to this day remains unaltered.

Nans

by Joana Bover | 2021

Cala Nans es una pequeña Cala de Cadaqués, solo accesible por caminos de Ronda o por mar.

Un rincón virgen del Mediterráneo, donde la vegetación y la vigilia de un viejo Faro, hacen de este lugar un espacio natural, donde solo se puede escuchar el sonido del mar y las aves que sobrevuelan la costa.

Con las Nans, hemos querido poner de relieve el trabajo artesanal de sus pantallas, buscar un modo distinto de tejer la trama, combinarla con distintos colores y formatos dando vida a un estilo esencialmente mediterráneo.

Cala Nans is a small cove in Cadaqués accessible only by footpaths or by sea.

An unspoiled corner of the Mediterranean where the vegetation and an old lighthouse's vigil make this place a natural spot where all you can hear are the sound of the sea and of the birds that fly over the coast.

With Nans we wanted to highlight the craftsmanship of the lampshades and to look for a different way of weaving by combining different colours and formats to create a true Mediterranean style.

Nans S/16/H

Nans S/16/H

Nans Catenary S/16/4L

Cultura Mediterránea

A través de los siglos, el mar ha actuado como elemento cohesionador del paisaje y la cultura de sus pueblos. Las personas que vivimos a lo largo de su costa occidental, compartimos un modo de vida abierto al exterior que nos identifica. La esencia de la cultura mediterránea es la riqueza lingüística, la gastronomía y el conocimiento de los oficios.

Mediterranean Culture

Over the centuries, the sea has been the binding element in the landscape and culture of its towns.

Those of us who live along its western shores share a way of life that is characterized by our openness to the outside world. The essence of the Mediterranean culture are its linguistic richness, its cuisine and its skills in the trades.

Las Nans nos permiten realizar distintas composiciones de estructuras y pantallas, consiguiendo una amplia gama de usos y aplicaciones.

Nans lights enable us to create different compositions of structures and shades, achieving a wide range of uses and applications.

Quizás porque somos del mediterráneo;
el outdoor es uno de los campos en los que Bover
es más conocida.

El denominador común de esta colección
es la combinación de resistencia y sensibilidad.
Resistencia ya que está diseñada para poder vivir
cómodamente a la intemperie, y sensibilidad
expresada en la delicadeza con que tamiza la luz
y la calidez general de la lámpara. Estas características
hacen que tanto dentro como fuera de un espacio
arquitectónico, ayuden a crear una sensación
de continuidad.

It is probably because we come from the Mediterranean that the outdoors is one of the areas for which Bover is best known.

This collection's common denominator is the combination of resistance and sensitivity. Resistance because it is designed to be able to stay happily outdoors, and its sensitivity shows in the delicacy with which it filters the light and the overall warmth of the lamp. These features help to create a sense of continuity both on the inside and outside of an architectural space.

Nans S/55

Nans S/55

La pantalla de la Nans S/55, está tejida a mano con una trama más elaborada, que combina distintos modos de tejer la fibra en un mismo plano.

Se diferencia del resto de la colección, porque incorpora un difusor de polietileno de forma elíptica, que matiza la luz y evita el deslumbramiento.

The Nans S/55 shade is hand woven with a more elaborate weave, combining different ways of weaving the fibre in the same layer.

It is different from the rest of the collection, because it incorporates an elliptical polyethylene diffuser, which filters the light and prevents glare.

Pensada para resolver la iluminación lineal en espacios que requieran una luz suspendida en el ambiente y que, al mismo tiempo, nos permitan flexibilidad o cambios, en función de las necesidades de cada evento. El difusor es de polietileno e incorpora en su interior la placa Led de 24v.

Designed for linear lighting solutions in spaces that require a light suspended in the air while allowing for flexibility or changes, depending on the needs of each event. The diffuser is made of polyethylene and incorporates inside the 24v LED plate.

Mare Nostrum
Mediterráneo
Nuestro mar

A veces me pregunto, qué hace que este mar
sea tan especial para todos los que vivimos en su ribera.
¿Ocurre lo mismo en todos los mares?

Para los que vivimos a orillas del Mediterráneo,
el mar, es nuestra visión infinita de las cosas y de la vida.
Es nuestro universo, el punto desde el que partimos
y al que siempre queremos regresar.

*Mare Nostrum
Mediterranean
Our sea*

*Sometimes I wonder what makes this sea
so special to all of us who live on its shores.
Does the same hold true for all seas?*

*For those of us who live on the shores of the Mediterranean,
the sea is our infinite vision of things and life.
It is our universe, the point from where we start
and where we always seek to return.*

Hotel Gran Meliá de Mar – Illetes / Mallorca

Nit

by Gonzalo Milà | 2023

Nit /80/R

Una superficie circular que flota sobre una falda iluminada, integrando la luz ordenadamente sin ocupar superficie útil y alumbrando lo mínimo para desenvolverse a su alrededor.

La lámpara es de batería y emite luz superior e inferior.
La luz superior emerge de forma discreta, asomándose por encima de la superficie, con el objetivo de bañar suavemente el sobre de la mesa y facilitar la visión de los objetos en la oscuridad.

El mismo cilindro de luz, se adentra en la parte interior de la estructura metálica, iluminando de forma indirecta, la pantalla tejida a mano con cordón marino o médula sintética.

A circular surface that floats on an illuminated skirt, integrating the light in an orderly manner without occupying a usable area and illuminating the minimum to open out around it.

The lamp is battery-powered and emits light above and below. The upper light emerges discreetly, peeking above the surface, with the aim of gently bathing the table top and revealing objects in the dark.

The light cylinder penetrates into the inside of the metal structure, indirectly illuminating the screen woven by hand with nautical cord or synthetic rattan.

Nut PF/10

Con las Nut baliza hemos querido ampliar la familia y llevarnos las balizas al jardín, para mezclarlas con el verde de las plantas y los arbustos.

Las balizas emiten un halo de luz inferior matizada y directa con un ángulo de 55°. No son orientables.

With Nut bollards we've wanted to expand the family and take the bollards out into the garden to blend them with the green of the plants and bushes.

The bollards emit a halo of nuanced, direct lower light at an angle of 55°. They are non-directional.

Perris

by Joana Bover | 2023

La lámpara Perris es el clásico ejemplo de producto atemporal, que se adapta sin estridencias y confort a cualquier ámbito. Emite una luz tamizada a través de su pantalla de médula tejida a mano.

Su característica principal son sus prestaciones IN-OUT que nos permiten instalarla en entornos de interior o en nuestros patios, terrazas o porches.

The Perris lamp is the classic example of a timeless product, which undramatically and comfortably adapts to any environment. It emits a subdued light through its hand-woven rattan shade. Its main benefit is its IN-OUT features with which it can be installed indoors or on patios, terraces or porches.

Platet

by Christophe Mathieu | 2020

Platet A/02 / Indoor

Platet A/01 / Outdoor

Formas simples, que nos resultan familiares y nos hacen viajar a través del tiempo. Adaptado a la fuente de luz LED, hay algo de romántico en la Platet. La paleta de color incorpora tonos sobrios y cálidos, siempre con la parte interior de la pantalla de color blanco que nos proporciona una buena calidad de luz.

Simple shapes that have a familiar feeling and make us travel through time. There is something romantic about the LED adapted Platet. Its colour palette includes sober and warm tones and the inner side of the lampshade is always white for good light quality.

Tanit es una lámpara de sobremesa portátil y recargable, de luz suave y tamizada por una pantalla tejida de forma artesanal con hilo de algodón.

Tanit is a portable and rechargeable table lamp that gives out a soft light filtered through a handwoven cotton thread lampshade.

Tanit M/29/R | Indoor | Battery

Amphora

by Alex Fernández Camps / Gonzalo Milà | 2013

Amphora

Sus grandes volúmenes y formas rinden un sutil y discreto homenaje a las ánforas de terracota que antiguamente se utilizaban para almacenar alimentos.

The size and shape of this collection pay a subtle and discreet homage to the terracotta amphoras used once upon a time to store food.

Elipse

by Alex Fernández Camps / Gonzalo Milà | 2013

Eclipse S/30/H | S/50/H

Eclipse PF/30

Elipse outdoor es una solución sencilla,
libre y flexible en su aplicación.
Puede actuar de sobremesa colgada
de una rama durante una cena, iluminar
un rincón de un jardín junto a una hamaca,
o crear una atmósfera mágica
con un conjunto de Elipses suspendidas
en la noche. La belleza de la sencillez.

*Elipse outdoor is a simple,
unrestrained and versatile product.
It can be hung from a branch over
a table for a dinner, to light a garden
corner by a hammock or to create
a magical atmosphere with a set
of ellipses hanging in the night.
The beauty of simplicity.*

Garota

by Alex Fernández Camps / Gonzalo Milà | 2013

Garota M/36

Garota P/01

Garota, inspirada en el caparazón de un erizo de mar, nos ofrece una luz cálida y tamizada, envuelta en formas orgánicas, redondeadas y sutiles, pensada para acompañarnos en zonas de interior y exterior indistintamente.

Garota, inspired by the shell of a sea urchin, offers a warm and diffused light, wrapped in organic, rounded and subtle shapes, designed to be with us either indoors or outdoors.

Garota Catenary S/27/4L

Diseño atemporal,
identidad mediterránea.
Una mirada distinta,
sobre los objetos cotidianos
que nos rodean.

*Timeless design,
Mediterranean identity.
A different look
at the everyday objects
that surround us.*

“Cornet es un proyecto con alto contenido técnico. Sus líneas armónicas y orgánicas consiguen mimetizarse con la naturaleza donde no existen líneas rectas.”

“Cornet is a highly technical project. Its harmonious and organic shape allows it to blend in with nature where there are no straight lines.”

Tria

by Rubén Saldaña | 2014

Las Tria son uno de los productos con mejor aceptación de nuestro catálogo, por este motivo decidimos llevarlas hasta nuestras terrazas y jardines.

Sus formas orgánicas, como piedras de río gastadas, hacen de ellas un objeto singular. A diferencia de las Tria indoor y debido a su grado de protección IP-66, las Tria outdoor no pueden instalarse de forma modular, son luminarias individuales.

Tria is one of the most popular products of our catalogue, which is why we decided to take them outside to light our terraces and gardens.

Their organic shapes that remind us of polished river pebbles make them unique objects. Unlike the Tria Indoor and because of their IP-66 protection feature, the Tria Outdoor cannot be part of a modular system because they are single lighting units.

Marietta

by Joana Bover | 2015

Marietta S/32

Marietta S/32

La Marietta es un todoterreno, resistente, fácil de limpiar y muy polivalente.

Un producto atemporal que puede convivir con productos contemporáneos, integrándose de manera natural en la vida de las personas.

Marietta goes anywhere – it is sturdy, easy to clean and very adaptable.

A timeless product that can sit happily next to contemporary products, blending naturally with people's different lifestyles.
